

Cloud Readiness Assessment

for NetApp Cloud Volume Service for Google Cloud

Migrate to Faster Enterprise Applications

Determine your business readiness to move your most demanding workloads to a faster, secure Google Cloud integrated file service with NetApp Cloud Volume Service (CVS). The CloudPro Readiness Assessment for CVS is a consultative service designed to evaluate your technologies and workloads for migrating to a Google Cloud integrated file service with advanced data management capabilities.

Enterprise organizations need more flexibility with a high-performance file service. With NetApp CVS for Google Cloud you can migrate to the cloud and run complex, performance-intensive and latency-sensitive applications with no code-change.

NetApp Cloud Volumes ONTAP®

The cloud provides infrastructure flexibility allowing you to pay for what you need, when you need it. With NetApp® Cloud Volumes ONTAP® (CVO) you can control your public cloud storage resources with industry-leading data management.

CloudPro's team of experts work closely with you to help maximize your storage efficiency in the cloud with CVO.

Execute at Speed & Scale

- Align business and technology strategies to drive desired business outcomes
- Create stakeholder value by understanding how file management decisions impact the bottom line
- Increase security and advanced data management performance in a cost-effective scalable environment

Elevate IT as an enabling function by improving business agility and speed.

Whether you are new to the cloud or are already using cloud today, our fact-based analysis provides you with the tools you need to move forward.

Drive Innovation in the Cloud

CloudPro's unbiased approach provides your organization with the insight necessary to inform your cloud decisions. We help you optimize your operational efficiency and provide expert guidance on migrating to NetApp's Cloud Volume Service for Google Cloud.

Our assessments are tailored to meet your unique business requirements and provide you with the optimal cloud migration strategy to drive innovation across your organization.

Overview

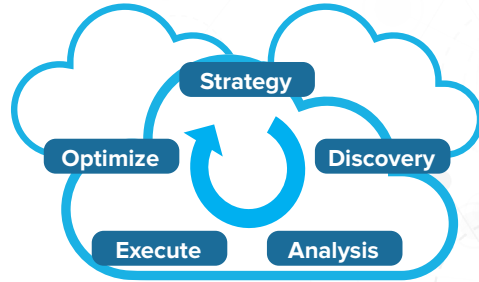

- Business requirements summary
- Technical requirements summary
- Cloud migration recommendations
- High-level solution architecture
- Capability development recommendations
- Cloud deployment prioritization
- Estimated TCO and benefits analysis
- Operations and security recommendations

In collaboration with

Accelerate your Cloud Adoption

Our assessment uses both quantitative and qualitative methodologies to help you leverage best practice NetApp and GCP technologies to achieve strategic business outcomes.

Key Benefits

- Experienced team of cloud experts to ensure a successful migration
- Future-proof your cloud investment
- Industry best practices and assessment methodologies
- Trusted partner for business and cloud technology challenges
- Deep industry knowledge and cloud expertise
- Simple engagement process and collaboration to drive project success

Cloud Volume Service Readiness Assessment Methodology

Strategy	Develop strategy and plan to accelerate your cloud adoption initiatives by focusing on the cloud readiness of your applications, data and infrastructure.
Discovery	Interview infrastructure, applications and operations teams to understand current technology landscape, workloads, assets, processes, and operating model.
Analysis	Analyze your specific workload requirements and applications to determine optimal migration path to a NetApp Cloud Volume Service for Google Cloud solution.
Execute	Assist your deployment team with migration execution using industry best practices to ensure a successful, cost-effective migration outcome.
Optimize	Analyze the allocation of cloud resources that support your applications, infrastructure, and workloads to maximize performance and minimize cost due to over-provisioning.

CloudPro is an industry leader in multi-cloud consulting, cybersecurity, go-to-market and Salesforce services. We offer a comprehensive portfolio of cloud services that help drive innovation and accelerate the profits of our customers and business partners. With leading Fortune 500 customers and partners around the globe, our company delivers scalable cloud solutions that meet the changing demands of our clients.
